the Cabinet the other day that we have the smaller man cannot afford to do, have risen enormously. Government never attended in our lives before a school to compare with that we were now attending for the purpose of gaining a liberal education.

"Of course, I learn a great many things that are not so. But the interesting thing about it is this: Things that are not so do not match. If you hear enough of them you see there is no pattern whatever: it is a crazy quilt. Whereas, the truth always matches, piece for piece, with other parts of the truth.

"No man can lie consistently, and he cannot lie about everything if he talks to you long. So that I would guarantee that if enough liars talked to you, you would get the truth.

"I had somewhat that experience about Mexico, and that was about the only way in which I learned anything that was so, for there have been vivid imaginations and many special interests, which have depicted things as they wished me to believe them to be.

"Now, seriously, the task of this body is to match all the facts of business throughout the country, and see the vast and consistent pattern of them. . . . I have asked myself, before I came here to-night, what relation you could bear to the government of the United States, and what relation the government could bear to you. There are two aspects and activities of the government with which you will naturally come into most direct con-

An Easy Way to Get Fat and Be Strong

The trouble with most thin folks who wish to gain weight is that they insist on drugging their stomach or stuffing it with greasy foods; rubbing on useless "flesh creams," or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat.
